SUBJECT: Equal Opportunity Action Plan

1. PURPOSE: This memorandum establishes policy for the Equal Opportunity Action Plan (EOAP) for personnel assigned or attached to the 14th Military Police Brigade. Members of this brigade are responsible to support this EOAP and to ensure its success.
2. To accomplish the Army's mission, we must preserve a high state of discipline and good order. This goal demands an environment that assures equal opportunity for every member of this brigade regardless of race, religion, gender, national origin or color. This affirmative action plan is a directive that outlines positive steps for leaders in the 14th Military Police Brigade to take.
3. The EOAP is a leadership tool designed to assist commanders and supervisors in assuring the professional growth of all brigade members based on merit, potential and ability. This plan not only identifies areas of interest for commanders and supervisors, but also outlines monitoring systems that help ensure a healthy equal opportunity climate.
4. 14th Military Police Brigade personnel must exhibit this positive and professional attitude in order to achieve fair and equal treatment for all persons.

ASSESSMENT AND REPORTING

2-1. Measurement. Measurement is an essential element of EO action planning. Measurement provides a basis to illustrate trends, highlight disparities, and point to the direction of change.

a. Staff proponents will use the representation index as a method of measurement in this EOAP. A condensed explanation of this technique is found in appendix D.

b. Other assessment tools.

(1) Subjective assessment. Subjective assessment methods include interpretation of the following: serious incident reports, inspector general reports, congressional complaints, staff visits, perceptual surveys and feedback received during EO training sessions.

(2) Other measurement tools. These include assessment tools in use or generated through contractual research efforts (i.e., standardized surveys, and focus groups).

2-2. Reporting Requirements.

a. Battalions must present the following data quarterly:

(1) Awards: AAM, ARCOM, MSM by Racial, Ethnic Designation Category (REDCAT), rank and gender.

(2) POSH: List of all newly arrived Soldiers that have attended post level prevention of sexual harassment training within the first 30 days of assignment.

(3) UCMJ Statistic: Court martials, summary, company, and field grade article 15s by REDCAT, rank and gender.

(4) Discharges: Chapter numbers by REDCAT, rank and gender.

- (5) EO Complaints: Commanders will forward Formal complaints to the Bde EOA. The unit EOR will report Informal complaints to the Bde EOA.

(1) Reporting achieved goals, and explaining unmet goals

(2) Action planned to achieve and modify goals.

CHAPTER 3

EQUAL OPPORTUNITY ACTION PLAN GOALS

3-1. General. This chapter contains Equal Opportunity Action Plan (EOAP) goals.

3-2. Format. Format elements contained in the EOAP are explained below:

a. Goal: The goal is the commander's intent and desired endstate.

b. Background: The background is a description of a situation identified as a condition or method of operation within the scope of a given organization. The background should reflect facts and, if available, statistical data.

c. Objectives and Milestones.

(1) Objectives and milestones are a timetable to facilitate management effort. They are not ceilings, nor are they base figures reached at the expense of requisite qualifications. In EO action planning, objectives are not quotas.

(2) Objectives should be realistic and attainable with "good faith" effort, time phased, measurable, and within the span of control or responsibility of the commander.

(3) Objectives responsibilities and accountability for EO actions and goals will be with the command or proponents that have resources and authority to control or influence the outcome of specific EO actions.

d. Timetable and reporting schedule. Timetable and reporting schedule may use fiscal year or calendar year requirements. The reporting schedules are expressed in quarters. The timetable and report schedule is a primary management tool for the EOAP.

e. Proponent. The proponent block must reflect a specific agency designated for each EOAP goal. That agency must have the inherent responsibility for the goal described in an applicable directive.

3-3. 14th Military Police Brigade EOAP goals are contained on pages 7 thru 11.

APPENDIX C

REPRESENTATION INDEX (RI)

Representation indices are used to measure changes in what happens to individuals as a result of normal functions of a system. RI's identify and provide valuable insights of institutional practices that are operating to the disadvantage of a particular group of people. The RI does not determine cause nor does it imply any intent to discriminate; rather, the RI measures the effects of what has occurred.

Calculation: Use the following formula to derive RI's from a comparison of the actual number and the expected number of people in a particular situation, i.e. those selected, promoted, or assigned, etc.

Representation Index $\frac{\text{Actual Number}}{\text{Expected Number}} \times 100 - 100 = \% \text{ of over or under representation.}$

Example: The following are results of a hypothetical promotion selection board and illustrate the RI in use.

Promotion E-4 to E-5 (Males)

		Eligible		Selected	Selection rate
White		750		425	56.7%
Black	(b)	160	(f)	60	37.5%
Hispanic		60		10	16.7%
Asian		30		5	16.7%
Native		0		0	0.0%
Other/Unknown		0		0	0.0%
Total	(a)	1000	(d)	500	

From this source data, the RI can be computed by following the procedure outlined below:

Step 1	Find the total number of Soldiers considered eligible.	(a) 1000
Step 2	Find total number of group (i.e. black males) eligible.	(b) 160
Step 3	Determine the expected percentage $b/a = 160/1000 =$	(c) 16
Step 4	Total number selected	(d) 500
Step 5	Expected number of black males 16×500	(e) 80
Step 6	Actual number of blacks selected =	(f) 60
Step 7	Representation Index $(f/e \times 100) - 100 = (60/80 \times 100) - 100 = -25\%$	

The resultant percentage that Blacks were under represented by 25% in this selection board. The percentage does not say anything about what caused the difference. Leaders will collect and analyze data from different points in time so they may discern trends and arrive at conclusions regarding institutional discrimination. The goal is to arrive at that point where the RI approaches zero. The RI would have been zero, for example, if the selection rate for blacks had been 80. Through chance though, the RI will usually fall on either side of the baseline. Commanders, staffs, and managers must scrutinize high values (+ or -) at different data points and analyze problem areas.
